RELAYS

OBJECTIVE: The student will work on development of coordination and team work skills.

MATERIALS NEEDED:

1. Large room.

PROCEDURE:

1. Divide the class into teams of 4 or 6 by counting them off.
2. Instruct the students that they will be doing relay races.
3. Explain that the first is Duck Walk relay. A duck walk position is crouching until you are almost sitting on your heels. Hands are placed on shoulders with the elbows lifted like wings. The students will waddle forward. When they cross a certain point that is determined by the teacher, they return to their line. After touching the next person to go, they go to the side of their line and sit down. When the whole team is seated quietly on the floor, they are declared the relay winners.
4. Choose some of the ideas given on the Teacher Data Sheet.
